

Get your Ham Radio License in Eureka

**Extended class schedule
Classes in January 2021**

**Thursdays 5:00 PM to 9:00 PM
Starting January 7th, 2021
Every Thursday for 6 weeks
Or until the class wants to stop.**

All are welcome to test for any class of license.

**North Point Front Room
Hwy. 93 North, Eureka MT.**

Ham radio is the best emergency and safety network available and will be used locally as well as world wide in the event of any disasters, natural or man made.

Study books will be available at the first class.

**You will need to register for the class to get a book by calling
Don Johnson WR7DW at 406 889 5886**

wr7dw@rexforddsl.net

No class of license requires Morse code, and the technician test is just 35 questions multiple choice. You can get 9 questions wrong and still pass, and during the study you will be given all the answers up front. You can also study on line at www.QRZ.com

The license is free for 10 years, then renew on line for another 10 years. We will have equipment on display and there will be demonstrations of various equipment. Eureka Repeater Group sponsoring the class has many local repeaters covering all of Lincoln County and into Flathead county, and much more.

Be prepared to increase your safety by having communications available in any emergency situation at any time day or night with these systems.
